

Master's Degree in Food Biotechnology

-  1 year (60 ECTS credits)
-  Spanish
-  Attendance required. Monday to Friday from 4:00 p.m. to 8:00 p.m.
-  (1) *(see table p. 6)*
-  Faculty of Chemistry. Oviedo
-  Mandatory (6 ECTS credits)
-  <http://cei.uniovi.es/postgrado/masteres/mba>

This programme is mainly intended for graduates in experimental, technological and biomedical fields, although participation of graduates in economic and social fields, interested or with experience in the food sector, will be promoted and taken into account.

The programme will enable graduates to work as technicians in food companies or official bodies related to the field of food, as well as to develop a research profile in the fields of food and food production.
