## THE UNIVERSITY OF OVIEDO'S COMMITMENT UNDER THE 2030 AGENDA

The Social Responsibility Report is a mean of providing and sharing information about the institution's main activities in the areas of teaching, research, knowledge transfer and management, as part of our statutory remit to serve civil society. It shows contributions through the generations every day, sometimes silently, to the attainment of Sustainable Development Goals (SDGs).

In October, we hosted the 28<sup>th</sup> CRUE's Commission for Sustainability, which I have the honour of chairing, where more than 150 experts have been welcomed in Mieres. During this forum it became clear that universities' responsibility in society's transition towards the 2030 Agenda lies in raising awareness among younger generations. Therefore, Spanish universities, through the CRUE, have signed the United Nations' Climate Emergency Declaration.

We also welcome the achievement of our institution in the latest UI GreenMetric World University Rankings assessment lead by the University of Indonesia, in which the University of Oviedo became 75<sup>th</sup> place ranking list, one of the 100 most sustainable higher education institutions on the planet.

Finally, the 25<sup>th</sup> United Nations Climate Change Conference was held in our country, where Spanish universities demonstrate the full potential for change.

- ↑ IND\_8.4 **Employment Forum**
- ↑ IND\_8.4 **Employment Placement**

FUNCTIONS VS SDG

Meaning of indicators:

↑ the value of the indicator is higher in 2018

↓ the value of the indicator is lower in 2018

= the value of the indicator was maintained in 2018

the value of the indicator improves in 2018

the value of the indicator worsens in 2018
